

HISTORIC and CULTURAL RESOURCES

JANUARY 2012

LEGEND: Historical & Cultural Resources

- Bayshore Heritage Byway
- - - Recommended route amendment
- Existing route (to be de-designated)
- Historic Properties*
- Historic Districts*
- Archeological Sites**
- Historic Sites***

* These sites/districts (1) are included in the New Jersey or National Registers of Historic Places; (2) have been determined Eligible for inclusion through federal or state processes as administered by the New Jersey Historic Preservation Office (HPO); or (3) have been identified through cultural resource survey or other documentation on file at the HPO.

** This dataset includes a vector grid of approximately 1/2 mile cells indicating the presence of archaeological sites. Archaeological sites are particularly sensitive to destruction and vandalism, and this grid format protects specific site locations while alerting users of this data to the potential presence of archaeological resources in their area of interest. This format is consistent with National Register guidelines.

*** Additional historic listings that are missing from the NJDEP spatial database have been located using other GIS and ancillary data sources. A complete listing of historic places was taken from the New Jersey and National Registers of Historic Places. 115 sites were added to the 2004 NJDEP GIS inventory of historic places, most of them in Cape May where the GIS coverage of historic properties has improved significantly with this updated GIS database. -- SJBC/Rutgers Inventory GIS data sources: NJ Department of Environmental Protection; NJ Department of Transportation, SJBC/Rutgers University
