

# Delaware River Valley Scenic Byway

LOWER MOUNT BETHEL TOWNSHIP, PENNSYLVANIA

*Please Join Us for a*

## *Byway Planning Workshop*

*Monday, June 14, 2010 from 7:00-9:00 PM*

*Centerfield School Building, 6984 S. Delaware Drive, Martins Creek, PA*

Planning for the Delaware River Valley Scenic Byway is now underway! At this first public meeting find out about:

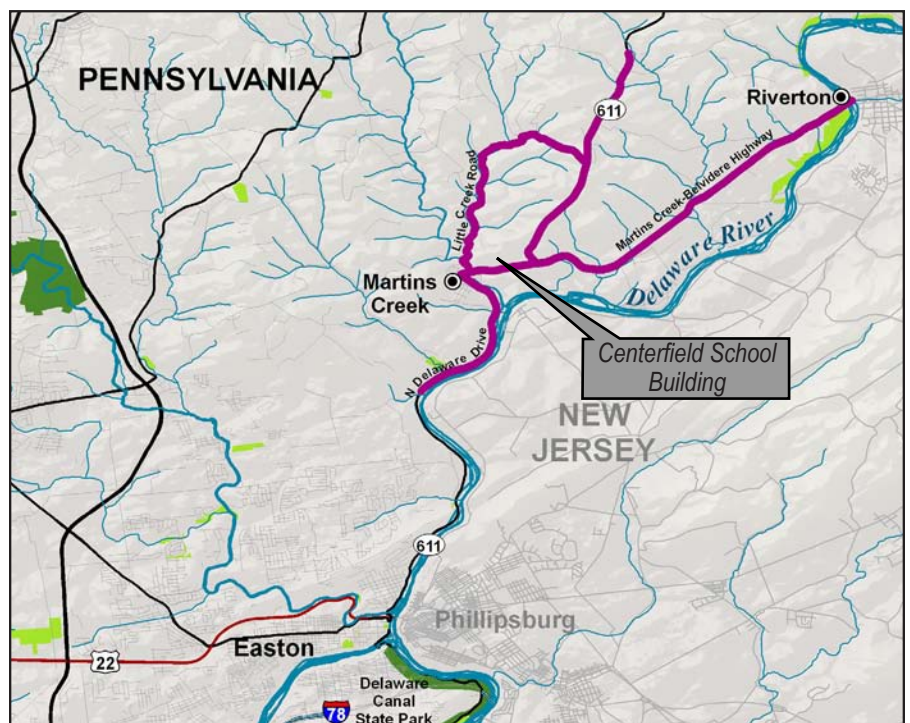

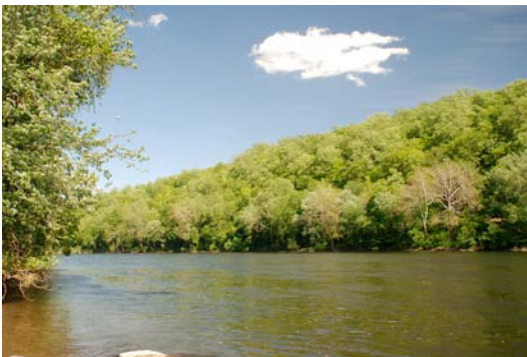

- What is the Delaware River Valley Scenic Byway?
- What is a byway management plan and how will it be developed?
- What are the benefits of byways?
- What does it mean to be designated as a National Scenic Byway through the Federal Highway Administration's America's Byways® Program?

The purpose of the byway management plan is to help the Township in their efforts to protect and promote the rich natural and cultural resource legacy still found throughout the corridor and to implement strategies for sustainable tourism development based on that heritage. The plan will also look at ways to expand the byway beyond the township to take better advantage of the Delaware River corridor.

Lower Mt. Bethel Township received a grant from the Federal Highway Administration to develop a Corridor Management Plan (CMP) for the Delaware River Valley Scenic Byway. Lower Mt. Bethel Township is one of a handful of communities from around the country that has received funding for corridor management planning through this program in recent years.

Now is the time to help shape this important planning effort. Please join us and bring a friend!

Lower Mt. Bethel Township cordially invites you to a public meeting to find out more about an important planning effort now getting underway to preserve and enhance the Delaware River Valley Scenic Byway in Lower Mt. Bethel Township and about the possibility of extending the byway to neighboring communities.
