

	Chapter	Old Page	New Page	Comment	Proposed Response
523	Appendix 1	n/a		<p>Map 1 – state parks are not completely shown or labeled; also all the little communities that are mentioned in the text need to be shown on at least one of the maps.</p> <p>Map 2 – show all scenic byways that cross or end at the JTHG; also the Potomac Heritage National Scenic Trail should be shown.</p> <p>Map 5 - Sky Meadows State Park in Fauquier County and Leesylvania State Park in Prince William County are not shown, nor are other nearby state park sites.</p> <p>Map 5 – label all visitor centers (VC), several missing or in the wrong place; Charlottesville VC in the wrong place and the one downtown not shown; the state VC at the Route 301 bridge over the Potomac River is not shown.</p> <p>Map 6 – Same comments as previous map on VC.</p> <p>Map 7 – The section of the byway as one comes into Charlottesville via Route 22 goes along Route 250, which is not designated. This map should show the designated scenic rivers within the corridor: Goose Creek, Rappahannock River, Rivanna River, and Catoctin Creek. (Lynne Crump)</p>	<p>Map 1 - only shows federal parks, forest and WMAs. State and county parks are shown on the Recreational Resources map. (Map revised to correct display of state properties.) State parks within the NHA have been labeled on Map 5. Federal lands are shown and labeled on all other maps to emphasize JTHG's national significance.</p> <p>Map 2 - We do not have gis data for all byways and trails that intersect the JTHG. We will try to obtain data for all byways and trails mentioned in these comments that are not already on the linkages maps. The Historic National Road and Lincoln Highway have been added. Adding all state scenic roads, byways and trails involves too much detail for the scope of this plan.</p> <p>Map 5 - Refer to earlier comments regarding Sky Meadows. Inclusion of this and other sites will be discussed at meeting on 9/22/2008. Sky Meadows has been labeled on Map 5, but it is not an anchor or secondary site.</p> <p>Map 5 - The visitors centers that are shown on the map are the ones associated with “getting to the byway” - from the major approach routes to the byway. Only visitor centers that are on roads that connect with the Heritage Area will be shown. Route 301 does not connect with the Heritage Area. If there are any other visitor centers that are on roads that do not connect with the visitor centers, they will be removed from the map. Visitor centers and their locations have been revised.</p> <p>Map 6 - See above.</p> <p>Map 7 - Byway route has been revised to follow Route 22 to Milton Road. Designated scenic rivers within the corridor will be labeled. State scenic rivers are noted on Map 2 and 7; Maps 4 and 5 note several rivers and streams along the corridor that are valuable natural and recreational resources.</p>
524	Appendix 1 - Historical and Cultural Resources Maps	n/a		<p>I could not determine if Hunterstown Village and the adjacent Battlefield is shown (under wording?) . Also the entire Fruitbelt, has been “deemed eligible” as a National Historic District, although it has not yet been officially listed</p>	<p>Hunterstown Historic District is shown as a National Register site, and the "Boundary Increase," which includes the battlefield, is shown as eligible. Current data does not include the fruit belt. Will inquire about more up-to-date information. If gis data is not available, a reference will be made in the legend. Added an approximate boundary for the Fruitbelt.</p>
525	Appendix 1	n/a		<p>Map 1 Mill isn't even listed as a secondary site</p> <p>Map 2 Mill not listed even as Civil War Trails site</p> <p>Map 8—Byway Visitor Attractions & Sites—Mill not listed, nor Thoroughfare nor LaGrange Winery (Ellen Percy-Miller)</p>	<p>Sites are only listed on Map 8; however, Chapman's Mill is not included because it has not yet been determined an anchor or secondary site. It will be reviewed by the DMOC at their meeting in October. Chapman's Mill has been added to Map 8 (the only map on which individual sites are called out) as an "Anticipated Anchor Site." The others were not included as determined at the DMOC meeting 10.16.08.</p>
526	Appendix 1	n/a		<p>Maps: Many of the maps don't compliment the text, and vice versa. It would be nice if the same information was in both the document and the maps. (PEC)</p>	<p>Will review maps for coordination with text. References to the maps are in the text.</p>
527	Appendix 1	Map 2		<p>Hard to distinguish symbols of trails when printed. Red seems to overpower map. (PEC)</p>	<p>Will review color choice. Linkages (Map 2) and Recreational Qualities (Map 5) maps have been revised to convey trails more clearly.</p>
528	Appendix 1	Map 3		<p>At this scale, some National Register sites are hard to see. Consider labeling them or using symbols to differentiate. (PEC)</p>	<p>Due to the scale of the maps and the number of designation categories being shown, symbology is somewhat tricky -- will revise to make as readable as possible. Map 3 shows the distribution of historic sites along the corridor. Individual sites have not been labeled, as they may not accommodate visitors. Sites that are intended to be visited by Byway travelers are labeled on Map 8.</p>
529	Appendix 1	Map 5		<p>Parks are a little hard to see at this scale, especially when printed on an 8.5x11. No symbol box for Fauquier indicating fishing, picnicking, horseback riding, camping, etc. (PEC)</p>	<p>Will review park symbols and revise as necessary. Maps are designed to be printed at 11 x 17 or viewed on the screen</p>
530	Appendix 1	Map 6		<p>Label location of the information centers; not just indicate with a “?”. (PEC)</p>	<p>Will make change as noted. Visitor center addresses have been noted on Map 6.</p>

	Chapter	Old Page	New Page	Comment	Proposed Response
531	Appendix 1	Map 8		So much information here that is a little hard to see. Should each county be shown on a different map? Also, it appears that sites in Fauquier County (other than Warrenton) were omitted. What about the 19 Historic Districts, vineyards on the wine trail, Chapman’s Mill, John Marshall Birthplace, National Register sites, battlefields, Afro-American Historical Society, Gold Mining Museum, Town of the Plains, Town of Remington, Paris, Delaplane, Atoka, etc. (PEC)	Will revise map after DMOC meets in October and site list is determined. Map 8 shows all sites approved by the DMOC at its 10.16.08 meeting.
532	Appendix 1	Map 8		Believe that this is Appendix 1 - Map 8 although it is difficult to tell as none are properly labeled. (Prince William Co.)	Maps are labeled in the lower right-hand corner. Dividers between the Appendices will be included in the final document.
533	Appendix 1	Map 8		There are several errors in this section. Cunningham Falls Park is missing. Manassas is referred to as a town and not a city. Great Meadows/Gold Cup[venue is missing. Downtown Charlottesville is missing. University of Virginia campus and academic village is missing. (Prince William Co.)	Will change the legend to read "City or Town" Cunningham Falls Park is not visible because the map shows only federal public lands. (CFP is a state park.) Great Meadows/Gold Cup are not shown because they were not submitted to the DMOC. The DMOC will be meeting in October to review the sites included in the plan. These sites were not approved by the DMOC at the 10.16.08 meeting and therefore have not been added to Map 8. Charlottesville Historic District and several sites within (including UVA) are labeled with
