

Lardner/Klein Landscape Architects, P.C.

Memorandum:

To: Michener's Chesapeake Country Scenic Byway Advisory Committee and Interested Stakeholders
From: Jim Klein
Date: July 2, 2010
Subject: Advisory Committee Meeting #2: Preservation and Conservation along the Byway

Thank you for your continued interest in participating in our Advisory Committee for Michener's Chesapeake Country Scenic Byway. Our next meeting will be held on

DATE: July 15, 2010 2-4PM (NOTE TIME CHANGE FROM EARLIER EMAIL)
LOCATION: Robbins Heritage Center at the Dorchester County Historical Society/LaGrange Plantation & Museums
1003 Greenway Drive, Cambridge,

Their website is at www.dorchesterhistory.org <<http://www.dorchesterhistory.org/>> for directions and parking.

The topic of the meeting will be on Preservation and Conservation Strategies for the Byway preceded by a brief discussion of a draft vision and goals statement that resulted from the first advisory committee meeting and from the public meetings.

Our draft agenda for the meeting will include the following:

- 2:00 Introductions
- 2:10 Review of first committee meeting and public meetings
Draft Vision and Goals ([click here for Attachment 1](#))
- 2:30 Significance of Intrinsic Qualities (see Attachment 2)
- 3:00 Discussion of tools for preservation and conservation
- 3:30 Discussion of preservation and conservation priorities for the corridor
- 4:00 Adjourn

Your input and advice is very much appreciated. Attached for your review prior to the meeting are the following draft statements for discussion at the meeting:

- 1) Draft Vision Statement for the Byway – note that the vision statement from the two heritage areas, Chesapeake Country Scenic Byway and Harriett Tubman Scenic Byway are also included for your reference.
- 2) Draft Corridor Definition and Significance Statement – this is important in that any funding that is pursued as part of the byway planning effort must be identified as part of the byway corridor, and the corridor must be defined in a manner that is consistent with the intrinsic qualities being featured along the Byway.
- 3) Draft Goal and Objective Statements for Preservation and Conservation – this will be posted on line prior to the meeting (still in progress)

Finally, please come prepared to discuss conservation and/or historic preservation priorities for the corridor, especially in your region, county or neighborhood. These may include beautiful views, significant historic sites or districts, or lands that play an important role as the setting for an historic site or district. If you have any questions about this material, please do not hesitate to call either Jim Klein at 1-800-337-1370 or Shelley Mastran at 703-927-4584.
